Response to Amendment

1. Applicant's amendment received on August 13 2007 in which claims 1-6 were amended, claim 7 was canceled, and claims 8-13 were added, has been fully considered and entered but the arguments are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukuda (US Patent no. 5,787,204).

Regarding claims 1 and 4, Fukuda discloses an image data filtering apparatus and method for reducing blocking effect and noise when a frame of the image data is composed of data blocks of predetermined size (See Abstract and col. 3, lines 4-17), the method comprising checking whether all coefficients of pixels in a predetermined region of the data block is are equal to zero or not (See Fukuda col. 10, lines 54-61), generating filtering information on whether the data block requires filtering depending on

Art Unit: 2621

whether all coefficients of pixels in the predetermined region of the data block are equal to zero or not (See Fukuda col. 10, lines 65-67, col. 11, lines 1-4), and filtering the data block passed through inverse quantization and inverse discrete cosine transform according to the generated filtering information (See Fukuda col. 11, lines 25-37 and col. 12, lines 62-67 and col. 13, lines 1-8).

4. Claims 2-3, 5-6, and 8-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
